**POPE DERIDES WORLD POWERS FOR LACK OF ACTION ON DEATH CAMPS**

Pope Francis kisses a child during a meeting with young people, in Turin, Italy, Sunday, June 21, 2015. Pope Francis earlier prayed in front of the Holy Shroud, the 14 foot-long linen revered by some as the burial cloth of Jesus, on display at the Cathedral of Turin.

**TURIN, Italy**

Pope Francis on Sunday denounced what he calls the great powers of the world for failing to act when there was intelligence indicating Jews, Christians, homosexuals and others were being transported to death camps in Europe during World War II.

He also decried the deaths of Christians in gulags in Russia under the Stalin dictatorship, which followed the war.

The popes harsh assessments came in impromptu remarks during his visit to Turin, northern Italy, when he told young people he understands how they find it hard to trust the world.

'The great powers had photographs of the railway routes that the trains took to Auschwitz to kill Jews, Christians, homosexuals, everybody, Francis said, citing the death camp in Poland, and asked: 'Why didnt they bomb those railroad routes?

Referring to the gulags in Russia, Francis said: How many Christians suffered, were killed there.

Lamenting the cynicism of world players in the 1930s and 1940s, Francis said: the great powers divided up Europe like a cake.

He also cited what he called the great tragedy of Armenia.

In the last century, so many, millions, (of Armenians) died. But where were the great powers then? They were looking the other way, the pope said.

In April, the pope angered Turkey when he referred to the slaughter of Armenians by Turkish Ottomans as genocide.

In todays world, he told the young people: Everything is done for money. He criticized those advocating peace while manufacturing or selling arms.

Francis reiterated his view that conflicts in the world today are tantamount to a Third World War in segments.
